SEQUENCE LISTING AMENDMENT PURSUANT TO 37 CFR § 1.825

Mail Stop Missing Parts Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

A Sequence Listing in compliance with 37 CFR § 1.822 and/or § 1.823 was requested with the "Notice to File Missing Parts of Non-Provisional Application" dated December 23, 2005. Accordingly, pursuant to 37 CFR § 1.825(a), Applicants herewith submit three substitute sheets with an amended Sequence Listing. In particular, section <213> for each sequence has been amended to provide that the sequence is Artificial, while corresponding sections <223> clarify that the particular sequence is an oligonucleotide primer or an oligonucleotide probe. In addition, the entry for SEQ ID NO 11 has been deleted, since it is identical to the sequence corresponding to SEQ ID NO 6. Support for these amendments is replete throughout the application as filed. See, e.g., Examples 1 and 2. These substitute sheets include no new matter.

Respectfully submitted,
